

Facebook Privacy

Facebook is a social media website where you can share and chat with your friends.

It's important to stay safe while using Facebook as anyone can see what you share.

Changing your privacy settings can stop strangers from viewing your profile and information you share.

An example is making your account private.

Facebook Checklist

Tick the box if you know how to do the following on Facebook.

I can go to my Privacy Settings.

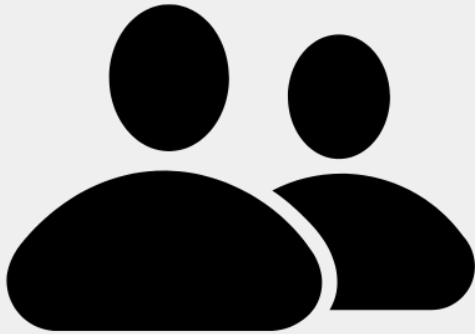

I can do a privacy checkup.

I know who can see what I share.

Facebook Checklist
