Why do we need to be safe online

Protect what’s important to you

1. Reputation- Anything you post on the internet is permanent, think about how you would like your friends, family or future employers to see you online.

2. Relationships- Can be more complicated online , always think about what you say to and about people online.

Reputation

Don’t post inappropriate messages and comments online.

Would you share this information with your Family ?

Be thoughtful about what you post ,future employers and others may look at your digital footprint.

Relationships

You are in control, it’s okay to say no.

Be nice to others in a group even if everyone else is being mean to someone.

Don’t talk to strangers or people you don’t know in private.

Protect what’s important to you

3. Privacy- Personal information about you and others should be kept private, you wouldn’t walk up to a stranger on the street and give him your address.

4. Money- It’s important to be aware of scams and fake websites online as someone may try get your personal & financial details.

Privacy

Keep your social media profiles private.

Know how to report or block someone

Think about the information your sharing

Money

Create strong passwords.

Don’t click any strange links or emails.

Don’t share any private information.
